

FIG. 1

FIG. 2

FIG. 3 is a graph showing the relationship between oil pressure and engine speed. The vertical axis is labeled "OIL PRESS." and the horizontal axis is labeled "HIGH". The graph shows a series of peaks and valleys, indicating fluctuations in oil pressure as engine speed increases. The peaks are labeled with values 26, 22, 24, and 28. The valleys are labeled with values 26, 22, 24, and 28. The graph also shows a horizontal line labeled "ATMOS. PRESS. LEVEL" and a vertical line labeled "NEG. PRESS.".
